# SYMPOSIUM

## Creating a Climate of Change: A Sustainable Future for the Living Earth

Join us as renowned social thinker **Jeremy Rifkin** and authors and educators **Gregory Cajete** (Santa Clara Pueblo) and **Melissa K. Nelson** (Turtle Mountain Chippewa) explore how we can incorporate the values of sustainability in our lives and connect with the empathic traditions of indigenous cultures. Learn with our distinguished speakers as they share strategies for accomplishing the cultural changes that will help us attain environmental health and balance in an endangered world. The symposium will open with a special blessing and drumming by members of the **Pueblo of Acoma Buffalo Dancers**. Moderated by **José Barreiro** (Taíno), assistant director for research, National Museum of the American Indian.
